

PRAJYOTHI TALEKAR

Frontend Developer

Berlin, Germany | jyotalekar77@gmail.com | +49-15206730657 | <https://prajyothi-talekar-portfolio.vercel.app/> | <https://github.com/Prajyothi> | <https://www.linkedin.com/in/prajyothi/>

PROFILE

Frontend Developer with hands on experience building responsive and scalable web applications using React and JavaScript. Previous experience in firmware validation strengthened analytical thinking, debugging, and quality focused development practices.

SKILLS

Frontend: JavaScript, React.js, React Router v6, Context API, HTML5, CSS3, Tailwind CSS, Material UI (MUI)

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB Atlas, Mongoose, SQL (basic)

Tools & Platforms: Git, GitHub, Postman, Visual Studio Code, Jira, Zephyr, HP ALM, Vercel, Render

Testing and Workflow: API Testing, Agile Methodology, Debugging, Test Case Execution

AI & Productivity Tools: GitHub Copilot, ChatGPT

EXPERIENCE

Product Validation Engineer- UST GLOBAL | Jan 2020-Mar 2022

- Performed end-to-end validation of BIOS and firmware for Intel server platforms to ensure product reliability and stability.
- Created and executed structured test plans and test cases using HP ALM and Jira.
- Collaborated with cross functional teams in Agile development environments.
- Executed structured testing and documentation, reinforcing quality driven development.
- Performed basic API validation using Postman to ensure frontend backend integration testing.
- Strengthened debugging, analytical and quality assurance skills through systematic validation processes.

PROJECTS

Netflix Clone – Full Stack MERN Application - <https://prajyothi-netflix.vercel.app/>

Tech Stack: JavaScript, React.js, Node.js, Express, MongoDB Atlas, JWT, Mongoose, Vercel, Render

- Built a production grade React Single Page Application using modern React concepts including Hooks, Context API, and functional components.
- Developed reusable and responsive UI components using Material UI with custom theming and mobile friendly layouts.
- Implemented JWT based authentication, protected routes, and session expiration handling for secure user access.
- Managed global application state using React Context API for authentication and content management.
- Integrated RESTful APIs using Axios with loading states, error handling, and token based API requests.

EDUCATION

Electronics and Communication Engineering - Sahyadri College Of Engineering & Management | 2015-2019

CERTIFICATIONS

Full Stack Web Development Course - Udemy

TELC German A1 Certification

LANGUAGES

English - Professional Proficiency

German - A1 Level (TELC Certified)
